Finding creative ways to reduce landfill

GLADYS The Inyo County Recyclescope

GLADYS THE INYO COUNTY RECYCLESCOPE: A kaleidoscope made of recycled materials a spokesperson' teaching the benefits of recycling.

Gladys is a 8ft tall and 6ft wide. She has six kaleidoscopes and made entirely from recycled materials. Commissioned by Inyo County, Gladys teaches how to sort recyclables in a fun and artistic way. She is free to Inyo County Residents

She has her own recycle buffet: a recycle sorting and transfer station. She is a bit of a monster and has a large appetite for clean & sorted recycled items.

She educates the public about how to recycle and reduce their impact on landfills. via, demonstrations, workshops, STEAM school integration, afterschool programs & public events Bring recyclables, sort them, and/or play with Gladys, at one of our events or book your own.

She is part of our ReUseArts program - finding creative ways to reduce landfills.

Other ReUseArts initiatives are:

- Workshops
- Art shows
- Makerspaces
- Revitalizing the Landfills
- ReUse Give & Take stations AKA 'Gladys' Closet'

PROGRAM OFFERINGS

FULLY CUSTOMIZABLE, ORDER A PROGRAM THAT MEETS YOUR OBJECTIVES*

"FREE!
for Inyo Residents!"

1. VISIT GLADYS ON SITE

Ideal for schools, Gladys can be set up on-site so classes can visit her one at a time. Presented by one of her handlers, students can expect an interactive and informative follow-up to the large audience Multi-media Presentation.

2. DEMONSTRATIONS / WORKSHOPS

Designed for fairs, community events, after-school programs, or other small group situations, Gladys and her handlers will present an informative, entertaining, and interactive exhibition and offer a Kaleidoscope Making Workshop if appropriate.

3. REUSEARTS WORKSHOP

Led by one of her artist handlers, participants will make a useful item from used materials.

4. MULTI MEDIA PRESENTATION

Ideal for school assemblies, or other large groups, this entertaining combination of live action, video, and slideshow elements can be used as a stand-alone environmental education presentation or in combination with the extension activities and STEAM curriculum materials

5. STEAM CURRICULUM

STEAM activities and lessons, adaptable for all ages, used in combination with the Multimedia Presentation. Designed for teachers and workshop presenters, students will explore the many ways they use recyclables each day, design and conduct simple experiments to test the properties of different types, learn how materials are made and recycled, and communicate their findings. Gladys' curriculum development will be done with consideration of National and California teaching Standards in Science, Art, & Maths

6. KALEIDOSCOPE WORKSHOP

Led by one of her artist handlers, participants will make their own kaleidoscope out of used materials learning optics, angles and more in accordance with the STEAM curriculum

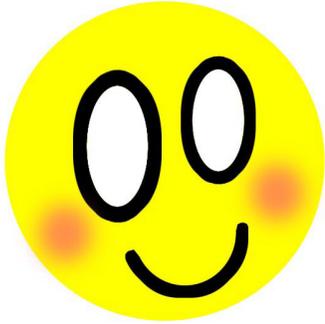

7. FIELD TRIPS TO FEED GLADYS

Classes can bring their collected and sorted recyclables to feed Gladys on site at the transfer station. Field trip's can include a presentation, tour (in collaboration with Inyo County), and an on-site kaleidoscope workshop.

ABOUT US

Goodent 501(3)(c), a new local non profit, making a positive impact with a mission to educate and uplift our community and celebrate human potential through reclaiming space and materials to promote art and wonder. This is our umbrella organization enabling us to reduce waste by reclaiming abandoned materials and spaces. A resource for sharing creative ways to reuse, workshops, shows and demonstrations are held at public community events and schools. We recently restored an abandoned theater to use for community performance and dance

Judyth Greenburgh, President of Goodent, conceptual artist, creative consultant and art educator. She combines her conceptual skills from years as a creative director with her passion for reclaiming what has been abandoned, by launching ReUseArt programs that share creative ways to reduce landfill.

Since moving to Inyo County over 12 years ago - she has been an art director for the Lone Pine Museum of Western Film, a muralist & creative consultant and is currently Vice President for the Inyo County for the Arts. A former tutor at Lone Pine's TANF afterschool program she currently teaches for ICA afterschool program and volunteers as an art docent. An award winning photographer & kaleidoscope artist she has exhibited and taught numerous workshops focusing on reclaimed materials.

Jael Hoffmann, founder of the Olancho Sculpture Garden, sculptor and educator with a 16-year experience as a substitute teacher for LAUSD and OVUSD, K-12 and as a Lead Tutor/Liaison for the Tribal Youth Education Program in Lone Pine for 3 1/2 years. Engaging students through hands-on projects that stimulate the creative process is one of her passions. As board member of Goodent, she is promoting education on how to care for the environment. Re-using otherwise discarded materials flows into the premise of reducing the landfill, thereby preventing the degradation of the environment.

Vice President of Goodent. Erin's background includes a Bachelor of Fine Arts degree, a California Teaching Credential for Elementary School, and years of experience coordinating and teaching art in various situations and communities across the USA. She is the School Arts Coordinator at Inyo Council for the Arts, where she coordinates arts education programming in Inyo County schools and communities. She is a passionate educator, visual artist, and environmentalist who uses STEAM activities to educate and inspire action in a fun and creative way. Creative reuse is her jam and she loves sharing it!

Our team of dedicated docents are available to conduct ReUseArts workshops and showcase Gladys. Visit www.Goodent.org to learn more about our programs.
